Warezio

## **Client Profile**

- Private television broadcaster in Slovakia.
- Operating since 2002.
- The portfolio includes original productions and licensed international titles.
- Offers content through its "JOJ PLAY" mobile and web applications.

# Initial situation

- The company has never used anti-piracy services and nor has it addressed piracy internally.
- Management of this company was informed about unauthorized distribution of their content on local file-sharing platforms like Uloz.to and Datoid.cz.

- Behind the glass

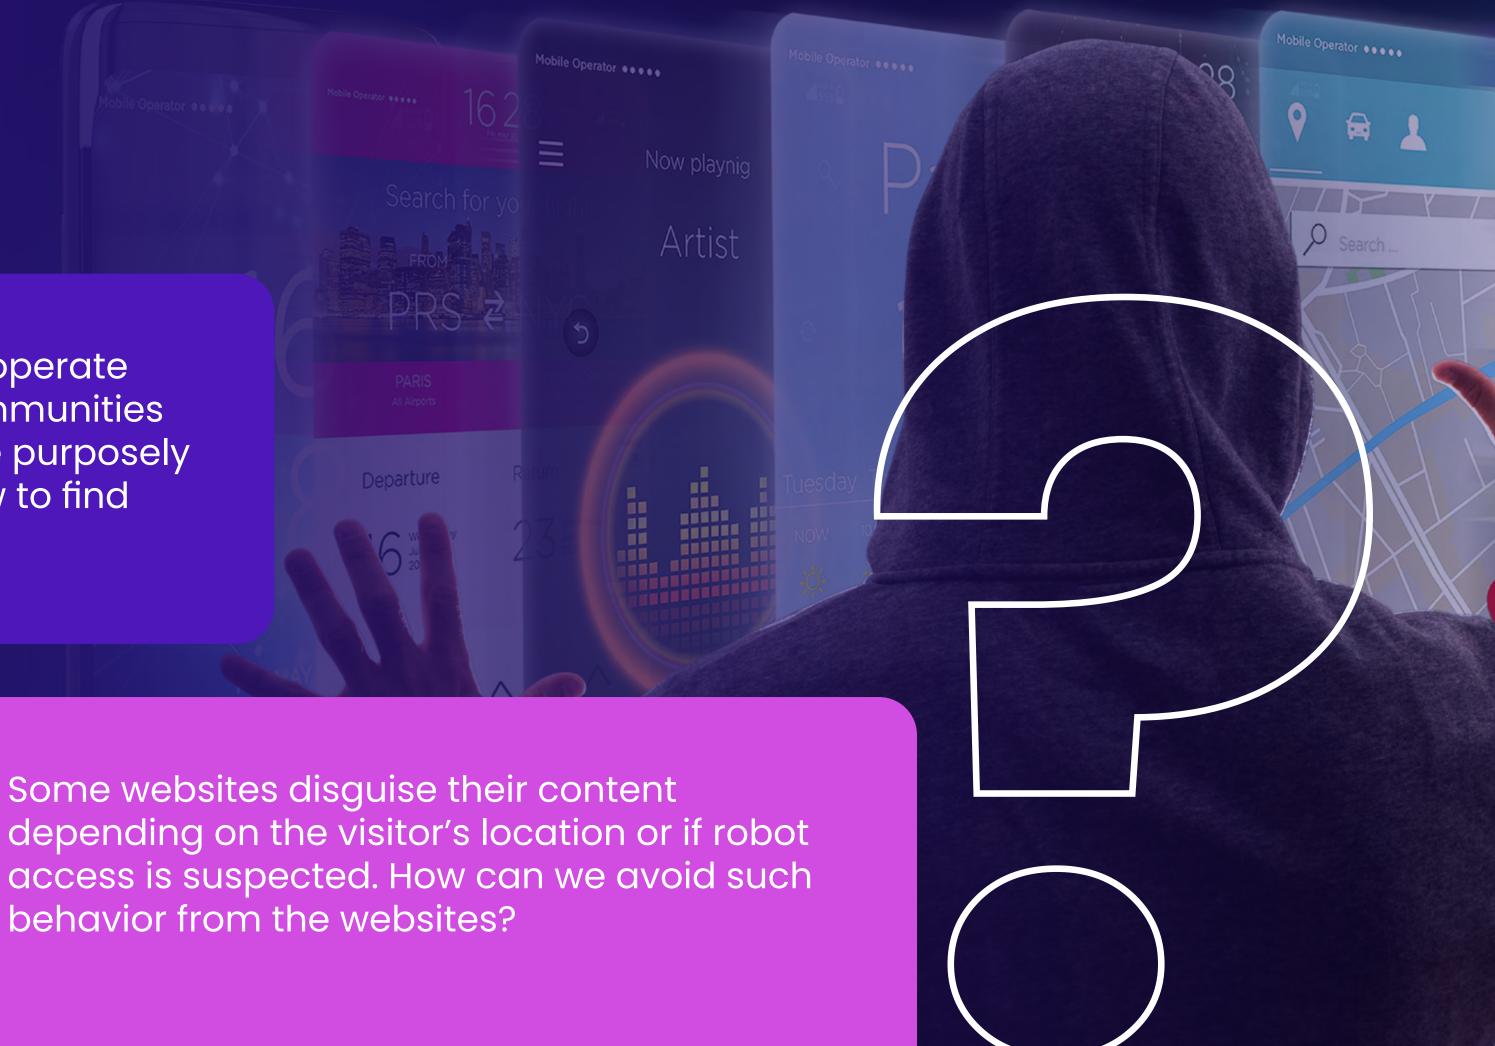

### Challenges

Certain sources of illegal content operate exclusively within small online communities (e.g., Slovak forums) and therefore purposely avoid search engine indexing. How to find such sources?

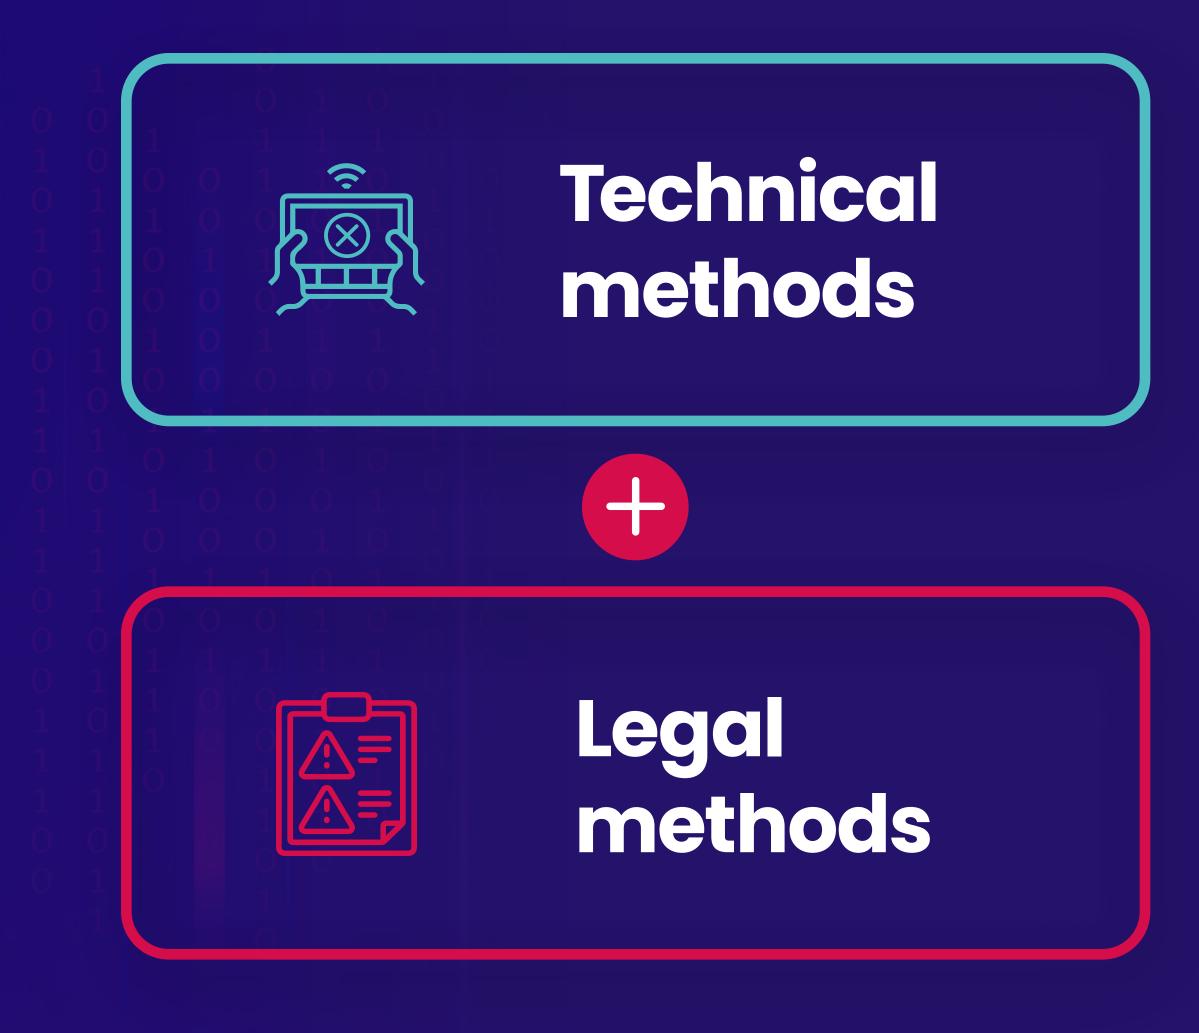

Content is often shared under official as well as unofficial names. How will we identify them continuously?

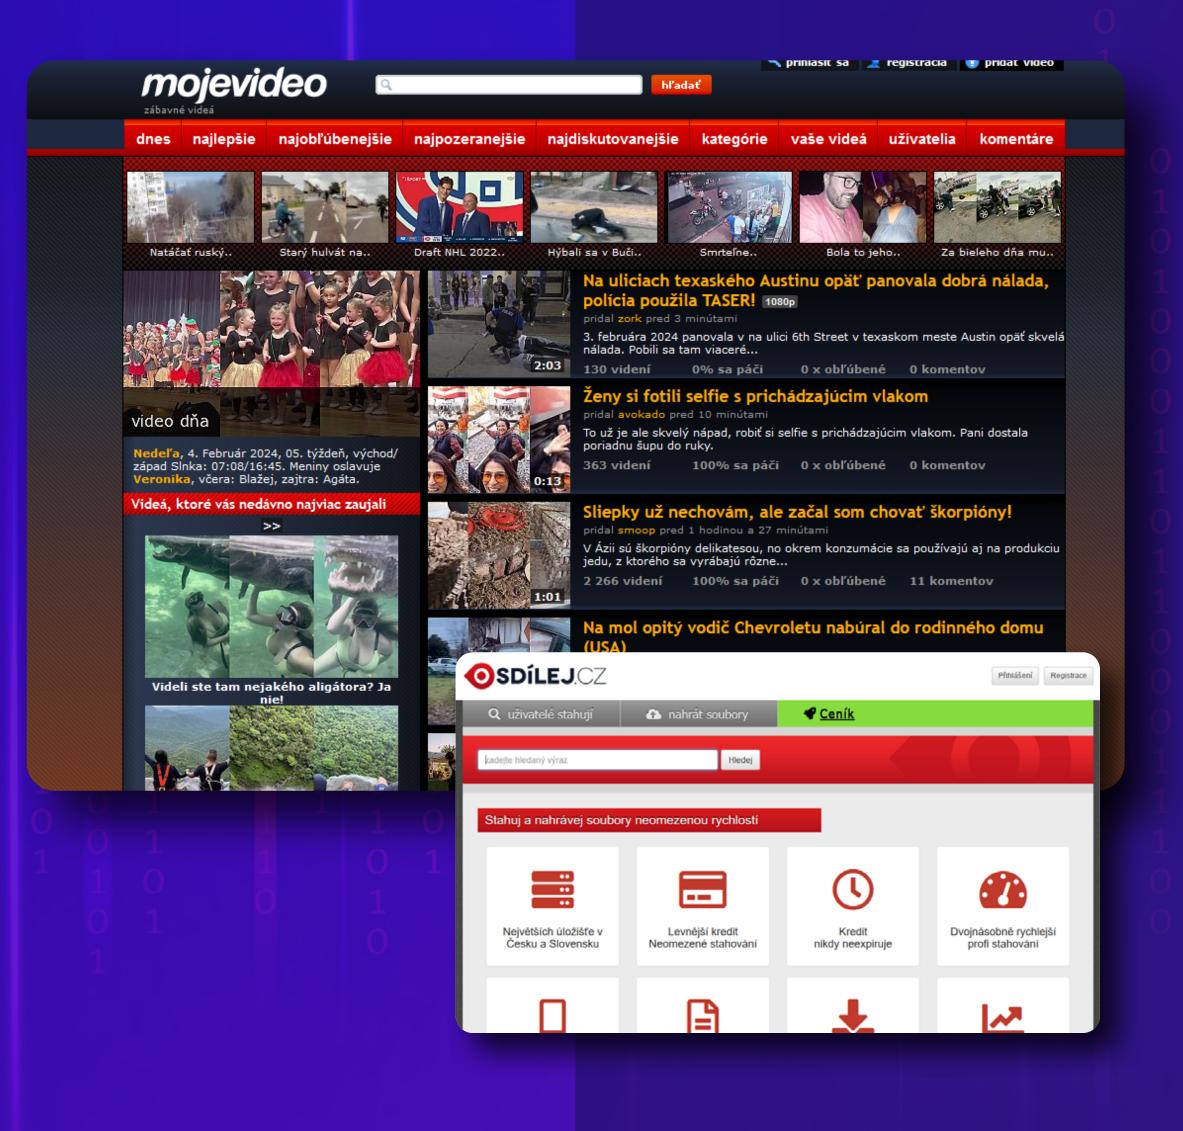

behavior from the websites?

Solution

## File sharing sites

Scanning and removal of content at selected popular file sharing sites in Slovakia.

### **Decoy Files**

- Generating and uploading of fake files resembling pirated content to selected file sharing sites in order to discourage illegal downloads.
- When playing a file, 5 minutes of looping is played instead of the author's work

### **Reduction in Piracyt**

During the first month of our collaboration, 64273 links of illegal content were recorded

By December 2023, this number had decreased to 5,100.

Between the first month of cooperation (March 2023) and December 2023, the number of links decreased by 92%.

## Elimination of the show "Na chalupe"

- 1,505 illegal links removed during the whole time of cooperation
- By December **31, 2023**, no active links remained.
- The show is currently only available to watch through official channels.
